cheek. She clasped his chubby form in cheek she clasped his chubby form in cheek. She clasped his chubby form in cheek she clasped his chubby form in cheek she clasped his chubby form in cheek. She clasped his chubby form in cheek says she is married, legally and any further I will attend at any session they see fit."

Mr. Croker would not [discuss the political outlook other than to say the he hoped all good Democrate would unite. Tammany Hall, he thought, was large enough for all.

While Mr. Croker talked he walked up and down in front of his stateroom. Happening to look at his watch he exclaimed: "Well, I declare, here it is 5.56 and our trunks have not arrived yet.

"What on earth will the children do for underclothes on the way over. I can manage myself all right.

"The captain is about my size. Mrs. Croker will manage all right, no doubt, but it is very disappointing to be left in this matter.

"See, here is my receipt for the trunks, so that there can have been no mistake in the directions. These express people should attend to their business better than this or (laughing) be investigated."

"Gov. Oliver, or Paradise Park, with two handkerchiefs tucked under his chiin to seek the streams of perspiration pouring from his head and face, rushed about up in time.

The scames waited nearly ten minutes for Mr. Croker's trunks, but the wait was its sain.

Comes Through the Great Conduit.

Thousands of Gallons Going to Waste Through a Leak,

flowed into the Central Park Reservoir from with thirtoen inches vesterday.

Lake was anflicient to draw that reservoir that the impounded supply at Boyd's Dam The Boyd's Dam Reservoir was drawn

Branch nearly an inch and a haif. If a greater amount of water is not drawn through the new aqueduct daily than was supplied yesterday it will take more than which is the purpose of the Public Works Department.

Chief Engineer Fteley, of the new aque-duct, appreciates this fact and is desirous of having the reservoir filled as soon as pos-sible, so that he can get at the work of re-pairs.

about an inch yesterday and the Middle

water to traverse the entire length of the One of the places which this test has shown to need considerable repairs is shaft No. 24 on the east bank of the Harlem River, where the tunnel plunges 300 feet beneath the stream.

sands of gailons which flow into the Harlem.
Shaft 24 was built by Contractors O'Brien
& Clark, and the masonry is lined throughont with cast-iron piping 48 inches in dismeter. The sections of pipe are joined with
lead calking, and it is thought that the
water which is cozing out of the hillside
comes from defectively leaded joints.
As soon as the water is shut off every joint
in this shaft will be theroughly examined
and the necessary recairs made.
Ten millions of gailons in excess of the
former supply are still being sent down the
sast side of the city, and the great mains in
Mott and Elizabeth streets are for the first
time filled and under pressure, so that the
people in the tenement house districts are
not compelled to pump from them as formetly.
When the reservoir is filled this sample.

merly.

When the reservoir is filled this supply will probably be cut off in a measure so that the draft on it will not be so great as to reduce it to the low level which has been maintained for months.
